What are we  
doing?

# Project Update So Far

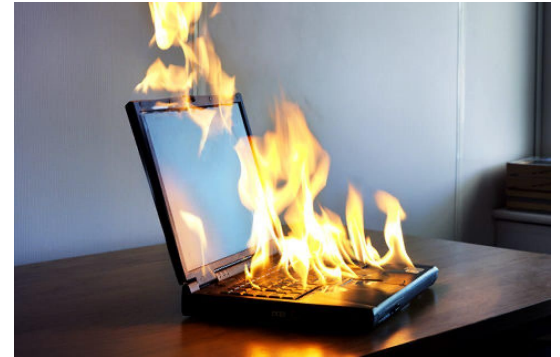

# Experimentation: Testing with Google Colab

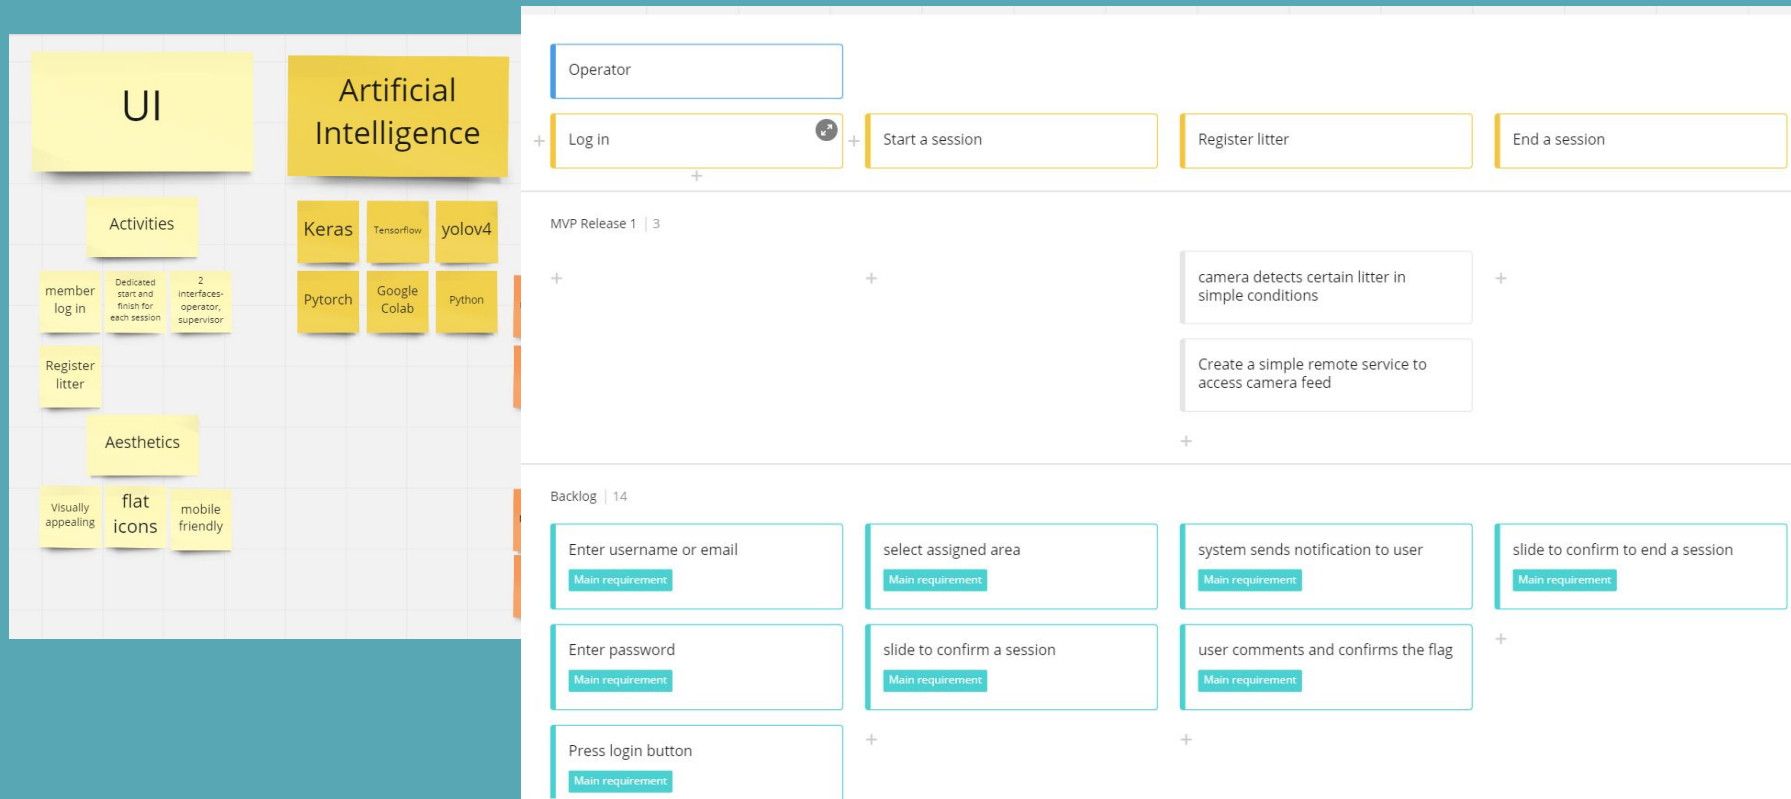

# Project Issues

- Training - potentially
- Will we have a consistent place to test our project?
- Future potential issues: the hardware the software will have to run off of. I.e: laptop? phones?

# Documentation

Status of The  
Project:

Green

# What is next?

# Team Reflection

# Thank you for listening

# After mentor meeting takeaways

- *Neutral Set, Positive Set, Negative Set*
- *Will our dataset be enough?*
